Valor® THE ORIGINAL™
RADIANT GAS FIREPLACE

Outdoor

Zero Clearance Series

L1 Series (1500):
Decorative Glass (1500DGS) with Reflective Glass liner (1525RGL).

Bring indoor comfort outdoors.

A Valor radiant gas fireplace provides the heat you and your family need to replace the outdoor chill with comforting, radiant warmth.

New Outdoor Conversion kit (GV6OCKO)

Now you can adapt a Valor gas fireplace with our new Outdoor Conversion kit and take advantage of Valor's radiant heat outdoors.

Why Valor?

Other outdoor fireplaces cannot match the radiant performance of our well engineered direct vent fireplaces. Valor fireplaces radiate a steady, even heat that extends your time spent outdoors. Enjoy!

A Valor fireplace outdoors

- ☐ effectively distributes radiant warmth and comfort.
- ☐ starts easily and is smokeless, burning 100 times cleaner than wood fireplaces.
- ☐ is safe to use during those dry summer times when open fires are prohibited.
- ☐ shuts down automatically after six hours of use, providing you with savings and peace of mind.
- ☐ expands your living area, increasing the value of your home.
- ☐ creates a beautiful focal point in your outdoor oasis without the hassle of building a fire.
- ☐ may be compatible with Valor's innovative HeatShift system. Find out more at valorfireplaces.com/heatshift
- ☐ is engineered for performance and efficiency, with Valor's innovative ceramic and stainless steel burners.

H5 1100/1150

H6 1400

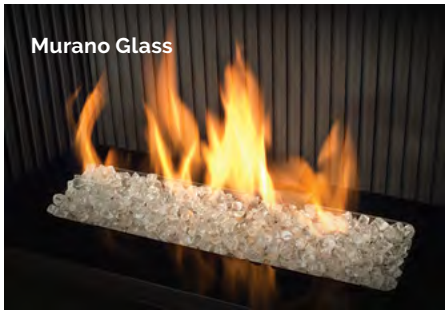
PORTRAIT SERIES

LEDGEVIEW 530

For more about possible front combinations, visit valorfireplaces.com/outdoor or drop by your local **Valor Dealer** for a copy of the series brochure.

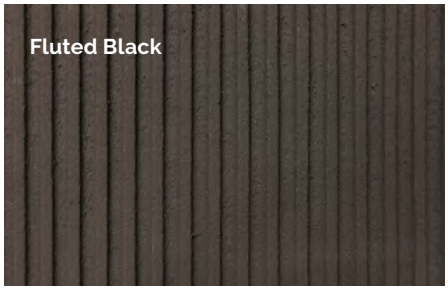
Fuel bed options

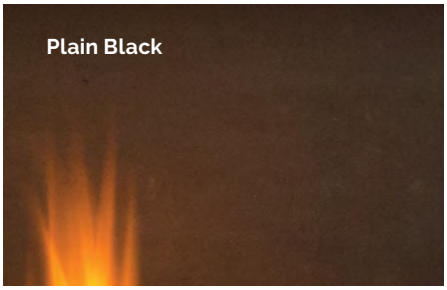
Select the firebed that catches your eye and reflects your style, one you will enjoy with family and friends. Depending on the fireplace series, **fuel beds may vary slightly** or **may not be available.**

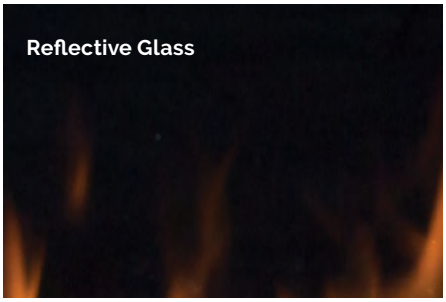


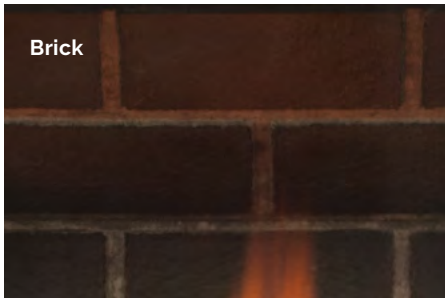
Liner options

Enhance the effect of the firebed you choose with our selection of liners:









For more about possible fuel beds, liners and optional components, visit valorfireplaces.com/outdoor or drop by your local **Valor Dealer** for a copy of the series brochure.

Bring focus t

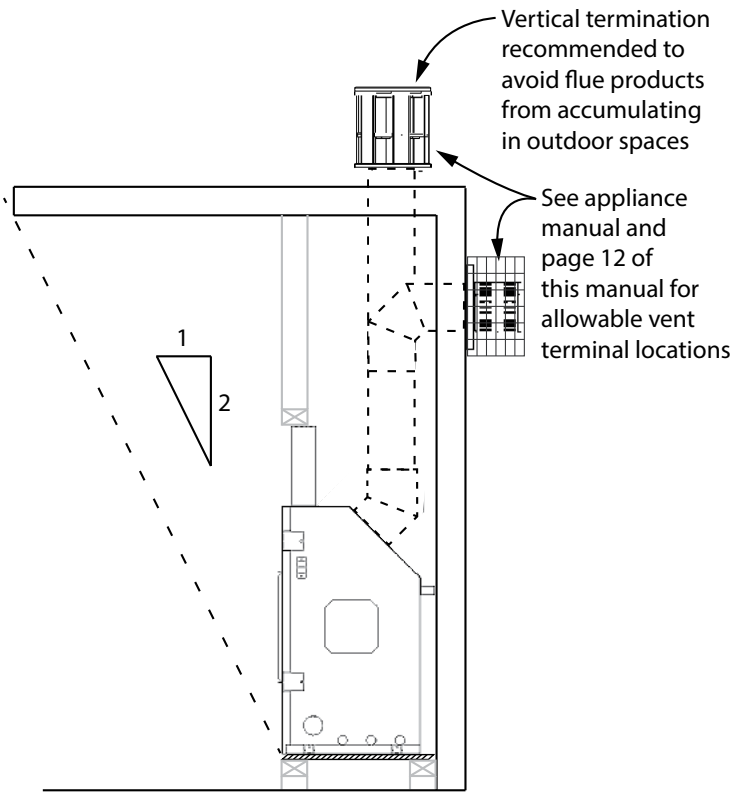
The Valor wall switch allows you to easily control your fireplace.

Turn your fireplace on and adjust the flame settings with the touch of a button.

Optional fireplace battery access makes changing batteries easy (standard with some models).

o your design.

H4 Series (650): Driftwood (534DWK) with Fluted Black liner (620FBL)



Here are a few things to consider when choosing an outdoor fireplace:

- ☐ Electrical accessories, such as fans or lighting, can't be used with a Valor outdoor fireplace.
- ☐ Enjoy your fireplace for years to come. Protect the parts from the wear and tear of sunlight and rain: make sure to install it in a weatherproof enclosure with the minimum overhang—the more, the better.
- ☐ Don't use a thermostatic remote controlled handset with your outdoor fireplace. Instead use the wall control switch (1265WSK or RBWSK) that's included. Install the wall switch under an overhang.
- ☐ The L1 2-sided fireplace cannot bridge an indoor and an outdoor space. The fireplace is meant for fully outdoor or fully indoor use.
- ☐ Your outdoor fireplace must always be situated and connected to a fixed piping system.
